CALCULATORS IN EXAMINATIONS

We want you to be confident that your Casio calculator is allowed in examinations.

All calculator models sold by Casio UK are permitted in UK school exams. Some models are permitted in Irish and IB exams.

We recognise that you want to ensure that the calculator is correctly set up. Please check the details for your model.

For non-school examinations, please refer to your exam board's regulations.

Examination mode

This calculator has several Examination Modes, including one each for UK exams and IB Diploma exams. You may need to update your calculator's operating system. Please see our **website**.

UK/C&G

Students are required to erase stored data.

We recommend using the UK Examination Mode. In the UK Examination Mode you cannot access

- any stored data, user programs, documents, activities and unauthorised functionality
- the periodic table and table of physical constants
- the conversion utility
- the modes eActivity, Program, E-CON, Python, Geometry, Picture Plot, Probability Simulation
- the Memory utility mode

Please see **instructions on using the UK Examination Mode** on our website.

IB

IB Examination Mode is required for use in examinations. Please refer to IB documentation.

In IB Examination Mode you cannot access
- vector calculations and 3D graphs
- any stored data, user programs, documents, activities and unauthorised functionality
- the periodic table and table of physical constants
- the conversion utility
- the modes eActivity, Program, E-CON, Python, Geometry, Picture Plot, Probability Simulation
- the Memory utility mode

Please see **instructions on using the IB Examination Mode** on our website.

Functionality

This calculator does not have
- symbolic algebra manipulation
- symbolic differentiation or integration
- language translators
